

WOMEN'S CLUBS ELECT OFFICERS

Mrs. C. H. McMahon of Salt Lake Chosen President of Federation.

CONVENTION IS NOW ENDED

MRS. C. H. WELLS DISCUSSES THE PHILANTHROPY OF ART.

A luncheon at the university, followed by an automobile ride from 3:30 to 5 o'clock Saturday afternoon, were the final features arranged for the entertainment of the delegates to the meeting of the Utah Federation of Women's Clubs, who closed the business of the sixteenth annual convention at noon Saturday.

The final business session was held during the forenoon, the chief feature being the election of officers for the organization. A Salt Lake woman, Mrs. C. H. McMahon, who had been corresponding secretary in the office of the president, Byron Cummings, was chosen to succeed Mrs. Cummings as the head of the organization. Those selected to the official positions in the organization are: Mrs. C. H. McMahon, Salt Lake, president; Mrs. Mary T. Hay, Park City, vice president; Mrs. John Douglass, Springfield, recording secretary; Mrs. Maud Lee, Ogden, treasurer; Mrs. John Reed, Salt Lake, state organizer; Mrs. John F. Cowan, Salt Lake, corresponding secretary; Mrs. J. H. Hornung, Mantle, auditor.

The directors chosen are: Mrs. J. W. Ald, Provo; Mrs. Sarah Konold, Springville; Mrs. Elizabeth Barrows, Ogden; Mrs. Philip Speckard, Provo; Mrs. A. B. Corey, Ogden; Mrs. A. J. Gorham, Salt Lake; Miss Rosalie Pollock, Salt Lake; Mrs. A. L. Neff, Brigham City; Mrs. A. Taylor, Salt Lake; Mrs. Carrie Erickson, Mt. Pleasant.

Twenty-Six Clubs Report.

The closing business session started shortly after 9 a. m. Saturday, at the Ladies' Literary Club house, 20 Third East Street. After the singing of "America" by the audience, and other preliminaries, short reports were received from the various clubs composing the organization. Twenty-six clubs were reported as being represented at the meeting.

A violin solo by Mrs. Torild Arnoldson of this city was followed by the report of the committee by Mrs. C. H. Wells, who also gave a talk on the industrial, economic and philanthropic side of art and crafts. She said the arts and crafts idea originated in the middle ages, was checked by the introduction of machinery and was later revived. The movement went into England by William Morris.

The address was a talk by Mrs. Bingham of Chicago on art and literature. There was also a brief talk by Mrs. Kinsley of the Ladies' Literary Club, who brought greetings from the Pennsylvania club women.

The luncheon at the university started at 1:30 p. m. and lasted until 3:30. During this time a talk was given by Miss Lucy Van Cott on the work of the university. The talk was followed by an automobile ride, in which many of the visitors to the city participated.

Many of the club women from other parts of the state who had been attending the three days' meeting left for their homes last night, while others will leave the city today or tomorrow.

DAIRIES MUST BE KEPT CLEAN

Inspector About to Make Trips to Make Sure Rules Are Obeyed.

All dairymen sending milk to Salt Lake have been warned to put their places in good condition and keep them that way. The city dairy and food commissioner will begin his second round of the year early in November. At the last visit made most of the dairies were found to be clean and tidy, but instructions were left that improvements must be made.

Letters are being sent out to dairymen telling of certain improvements that must be made and indicating what will be expected by the commissioner. He will visit plants in Salt Lake, Utah and Davis counties and may go still farther than that. The dairies will have to show a score of at least 45 points, governed by the government scoring card.

BEQUESTS TO BAPTISTS.

Hinchman Will Leave Over \$300,000 to Charities.

Pettition for the appointment of William H. Leary as executor in Utah for the estate of Joseph V. and Nancy L. Hinchman was filed in the probate division of the district court yesterday, accompanied by the will of both Mr. and Mrs. Hinchman, who died in Glenwood, Iowa, in 1907 and 1908, respectively, leaving an estate valued at \$300,000.

Property in the estate, including Salt Lake City, valued at about \$20,000, was included in the estate. Bequests of both testators were made to Baptist charities, both at home and abroad, amounting to more than \$300,000. The matter will be heard on Friday, Oct. 22, in the probate court.

JOHN HASKIN WANTED BY WIFE IN MONTANA

John Haskin, supposed to be in Salt Lake at present, is wanted by his wife in Anaconda, according to a telegram received by Chief Barlow yesterday. His best friend, James Meloy, is dead, and his child is very sick, says the telegram. Haskin was last heard of in Elko, Nev.

"WASATCH" BACON.

"A streak of fat, a streak of lean, with lots of goodness in between."

Money Available

People experienced in financial matters see to it that their money, in addition to being absolutely safe and yielding a substantial income for them, is available when they want it. When you invest your money in our Mortgage Certificates it can be obtained without inconvenience, while the interest at 6 per cent is always paid promptly or credited to your account. Issued for \$100.00 or multiples thereof and secured by First Mortgages on Salt Lake Real Estate.

DRUG COMPANIES CLOSE DATE

Four Local Concerns Will Soon Be Under One Management.

Under the title of Schramm-Johnson,

Drugs, one of the largest and most important business consolidations of the season will be effected during the coming week. Four of the leading drug stores of the city will be placed under one management with an approximate capital of \$100,000.

The firms concerned in the merger are the F. J. Hill Drug company, F. C. Schramm, the Sherwood Pharmacy and the B. H. Townsend Drug company. F. C. Schramm is to be president of the new company, with Joy H. Johnson as secretary-manager.

There was no change in the present locations of the various stores, but the smaller ones will be thoroughly overhauled and extensive improvements made in order to accommodate a very general addition to the stocks. When the new management has finished, the stores will be models of elegance in appearance, with immense stocks on their shelves and counters.

The consolidation is in the form of purchase of the Sherwood Pharmacy and the Townsend company by the Schramm and Hill interests. F. C. Schramm, the president, is one of the best known business men in Salt Lake, and "Schramm's" has become a household word during the years he has been in business. Mr. Schramm has been prominent in everything that has pertained to the welfare of the city.

Joy H. Johnson, the secretary-manager, is equally well known. For some years he has been hand in hand with those who have put their shoulders to the business wheel and in business circles he has ever been to the front.

Schramm-Johnson, Drugs, will in the future enter largely into the wholesale buying and selling. The consolidation, one of the new firm yesterday, "will enable us to buy much more advantageously and in consequence our patrons will be enabled to purchase much more cheaply. Our action will redound to the benefit of the city all around."

The papers will be filed some time during the coming week.

SKIN CARE NEXT TO LOSE SCALP

Assistant City Engineer Slated to Get American Party Knife.

Oscar H. Skidmore, assistant to City Engineer L. C. Kelsey, is next in line for decapitation, according to the present rumor. There is no complaint in regard to his work, but Skidmore is guilty of the crime of hanging close to Kelsey all through the troubles of his chief and of taking a stand against the board of public works, as did the city engineer who has been forced to resign.

Mayor John S. Briggs said yesterday that he understood Kelsey would get out of office on Oct. 15, and that the letter he sent to the council Monday last, accepting Kelsey's resignation, will name Oct. 15 as the date on which the resignation takes effect. George O. Chaney, chief assistant under Kelsey, will be in charge of the city engineer's office until a successor is appointed to run the business.

While Chaney has been in sympathy with Kelsey in his fight on the board of public works, he has not been open in it and has always gone along in a congenial manner. Chaney has stuck to his chief but not in the aggressive manner that Skidmore has shown. Therefore, those in the machine are now demanding that Mayor Bransford force Skidmore out. Whether the mayor will take this step remains to be seen.

It is said that Skidmore will be forced out as assistant city engineer even before Mike Fitzpatrick, chief inspector in the department of public works and the least efficient man in the city, is forced to vacate. Members of the board of works have declared they will fight any attempt to get the scalp of Fitzpatrick, and they may be able to keep him at the head of the poorest corps of inspectors of public works in the nation. At any rate, "Fitz" is still a member of the board.

It happens that Fitzpatrick is with the Kearns firm, and Skidmore isn't. And as the American party is through Bransford, is continuing its policy of ring rule, Skidmore will likely be the first to drop out of the city employ.

TYPHOID IS DECREASING.

Only Twenty-six Cases Reported to Board During Week.

Only twenty-six cases of typhoid fever were reported to the city board of health last week. That is the smallest number for more than a month. It is believed that the typhoid epidemic is about over and that the number of cases this week will again be decreased. During the week 40 cases of contagious diseases were reported, as follows: Smallpox, 1; diphtheria, 1; scarlet fever, 1; measles, 1; chicken pox, 2.

There were 42 births during the week ending Friday night, of which 22 were boys. There were 27 deaths, of which 14 were males. Nine bodies were sent away for burial.

The report shows five houses still quarantined on account of smallpox, 14 for scarlet fever and 2 for diphtheria. One case of smallpox is now under quarantine at the isolation hospital.

INCORPORATIONS.

The Utah Cooked and Smoked Meat company filed articles of incorporation with the county clerk yesterday, taking full capital stock of a patent for cooking and heating meat. The capital stock is \$10,000 in dollar shares, of which 4,000 shares are held in the treasury. Officers are Everett J. Wade, president; T. H. Monahan, vice president; H. E. Atchison, secretary and treasurer. These, with L. W. Wade and M. E. Atchison, form the board of directors.

CONTINUANCE GRANTED IN BELLE LONDON CASE

Another week's continuance was granted to Dora B. Topham (Belle London) and the Citizens' Investment company when these cases were called yesterday before Judge T. D. Lewis of the district court, charged with running the houses in the stockade for immoral purposes. The continuance was granted by agreement. In some cases the attorney for the defendants asks that parts of the information be stricken out and in others that the whole information be dismissed.

GUS S. HOLMES TAKES APPEAL FROM JUDGMENT

J. H. Ludwick, formerly engineer at the Knutsford hotel, was given judgment for \$215 by Justice Stanley A. Eakin yesterday when an appeal was filed in the district court by Gus S. Holmes, proprietor of the Knutsford, against whom the judgment was rendered. The money was for services, and Holmes claims Ludwick left his post on July 1 after having been employed on June 22.

PROF. F. A. MCJUNKIN.

NEW PROFESSOR'S DUTIES VARIED

Member of University of Utah Faculty Is Also the State Bacteriologist.

Professor F. A. McJunkin is the new professor of bacteriology and pathology at the University of Utah this year, and is also state bacteriologist and pathologist of Utah. Professor McJunkin's position of university bacteriologist and pathologist and also state bacteriologist and pathologist were created by the state legislature last year. In the capacity of state bacteriologist and pathologist his work will be mainly along the line of research in the determining of the cause of any infectious disease in the state. He also works in conjunction with the state board of health.

Professor McJunkin comes to Utah with the recommendation of the state board of health of New York, and also the University of Michigan. He received his preliminary training at the Ohio state normal school. In 1906 he was graduated from the medical department of the University of Michigan. In 1907 he was assistant pathologist at the University of Michigan, from which place he went to New York, where he assumed the duty of state bacteriologist and pathologist. He has been an instructor in bacteriology at the University of Michigan, and did research work under Professor F. G. Novy of the University of Michigan, and one of the greatest bacteriologists in the world.

Feeling the need of an organization to

introduce young men to the better side of Salt Lake as soon as they arrive in the city, and realizing that the loneliness that attracts the stranger between the time of his arrival and the time when he has been able to make a few suitable acquaintances is "enough to drive him to drink," five young men, who had been in Salt Lake less than six months have taken steps toward organizing a strangers club.

It is the intention to hold social gatherings every Sunday afternoon to which, through systematic advertising, every young man who comes to the city will be invited. Aside from the entertainment, the Y. M. C. A. and other organizations will be sought.

A list of hotels and boarding houses will be kept in which they will be classified according to respectability, location, price and other features. The list will be kept in some up-town office, and the list will be made to furnish employment.

The Y. M. C. A. in accordance with its Sunday open house policy, has offered to furnish quarters for the Sunday meetings of the club and to help in any other way it can.

THIRD VICTIM WITHIN WEEK DIES OF HIS INJURIES AT THE L. D. S. HOSPITAL.

The death of Bror Olson, aged 30 years, at 10 o'clock yesterday morning at the L. D. S. hospital from injuries received by being struck by a car on Main street two hours earlier is the third since last Sunday night resulting from street car accidents.

Richard Solomon had his head cut off by a car in the same way, and a car Wednesday night, and John Miller was instantly killed last Sunday night by a car.

Olson, who was a bookbinder working for the Desert News, disembarked from a northbound car midway between First and Second South streets on Main street at 8 o'clock yesterday morning and attempted to cross the street. He was struck by a car, and was rushed to the L. D. S. hospital. He died two hours after the accident. Olson was single, and, so far as is known, had no relatives in Salt Lake.

COMMISSION DEPARTS.

Body Which Is Compiling Indian War Records Leaves City.

During the week forty-nine names were added to the list of claimants for pensions for service during the Indian war as a result of the work of the Indian war veterans' commission, which has been holding forth in the office of the secretary of state during the week just closed. Applications were received from claimants in nine states other than Utah, from Canada and Mexico, for service in the Utah wars with the Indians during the pioneer days.

The work of the commission in Salt Lake closed yesterday, and the members will leave Monday for Tooele for a two days' session. Then they will go to Huntington, Emery county, and complete the work in Emery county before moving on. Already the commission has listed more than 1,150 names.

GETS \$200 FOR INJURY WHEN BIG SIGN FELL

Failure to properly secure a hanging sign at the corner of Second South and Commercial streets cost the Big Four Advertising company \$200, awarded by a jury in Judge George G. Armstrong's court yesterday in favor of Jennie Larson. Mrs. Larson was struck by the sign on Nov. 15, 1907, when it fell during a heavy wind. She sued for \$3,000. The case was thrown out of the district court when Mrs. Larson refused to submit to a physical examination, but the supreme court rules that this was not compulsory and reinstated the case.

PICK BOOKS FOR PUPILS TO READ

Education Board Compiles List of Best Books for Home Perusal.

To encourage home reading by the pupils of the public schools, the city board of education has compiled a list of good books for pupils to read out of school hours, and a count is being kept of the number of pupils who read them. The books are graded down from the eighth A classes to fifth B, and have been carefully selected. Superintendent D. H. Christensen has compiled a record of the reading of the books at home as shown during the school year of 1908-9 and those who had read the books before that time. Several new books are added to the list annually.

"Black Beauty" is the most popular among the younger pupils, as there were 1,284 who read the book before last year and 885 during that year, at home, or a total of 2,139. Other popular books are shown to be Baldwin's Hero Tales, The Fairy Tales of Robin Hood, Old Greek Stories and Robinson Crusoe.

The general scheme of the board in the home reading course is explained by Superintendent Christensen as follows: "Pupils should be encouraged to purchase suitable books, to subscribe for and read at least one of the best juvenile magazines and to visit the public library. Talk with them about their home reading and strive to develop a taste for the best literature."

"To facilitate and encourage, as well as to give systematic auxiliary work to home reading, several suitable books have been suggested in connection with the prescribed reading in classes above the third grade. Pupils are urged to obtain them from the public library and from school libraries. In fact, an incidental aim is to teach pupils the use of library and to bring them frequently into its environment. The readiness and willingness with which pupils respond to this additional reading will be determined largely by the quality of the work in reading class and the enthusiasm with which the teacher there imbues them."

"The results secured will be, to an extent, at least, a measure of the teacher's skill and her power to inspire her pupils with a genuine love for reading the best and purest literature."

CITY BREVITIES.

THE REGULAR monthly meeting of Temple Israel auxiliary society will take place next Tuesday afternoon at the B. B. rooms. All members are urged to attend.

MR. AND MRS. D. S. MAY are rejoicing over the arrival of a daughter.

FAILURE TO PROVIDE is the charge made by Isabelle Schurtz in a suit for divorce against Pettigrew, which was filed in the district court yesterday. They were married at Hillsdale, Utah, Oct. 2, 1879.

A MEETING of the building and grounds committee of the city board of education will be held in the board rooms Monday afternoon at 3 o'clock to make arrangements for the regular meeting of the board, which will be held Tuesday night.

THE CHRISTIAN ENDEAVOR SOCIETY of the Third Presbyterian church will hold a rally in the church tonight at 6:30 o'clock. All interested in the work are invited.

MEMBERS of the St. Mary's Cathedral Altar society met last Monday and decided to have a bazaar about the middle of December. Those present decided to call a meeting of all the members of the parish at 8 o'clock on Saturday, Oct. 16, at the residence of St. Patrick's for this afternoon at 4 o'clock at the Episcopal residence. All members of the parish are invited.

THE TWO CLASSES organized a month ago for the study of philosophy are meeting regularly in the basement of the city hall on Monday evenings at 8 o'clock. All interested are invited. The classes are free.

ARRANGEMENTS will be made to have the pupils of the Salt Lake school system meet regularly in the basement of the city hall on Monday evenings at 8 o'clock. All interested are invited. The classes are free.

ELIZABETH C. STOCKING was yesterday granted divorce from Frank J. Stocking by Judge C. W. Morse of the district court. Non-support since Jan. 18, 1908, was charged. They were married in Needles, Kan., Jan. 30, 1899. The husband did not contest the divorce.

U. G. MOSER will leave Sunday for a business trip to New York.

AT THE L. D. S. HOSPITAL, Tuesday, Dr. C. S. Baldwin performed the fourth surgical operation on Haxel Jaensch, and she is progressing nicely. Miss Jaensch was injured by a street car, May 2, 1908.

AT 12 EAST SIXTH SOUTH STREET tonight at 8 o'clock there will be a free lecture on new thought and the science of life.

GIVE INSTRUCTIONS HOW TO PREVENT TYPHOID

The Ensign stake Sunday school board is educating parents in the best means to prevent typhoid fever. There are a number of cases in Salt Lake, and instructions how to combat the germs are being given due attention. Physicians will deliver lectures as follows: Eleventh ward, Dr. G. W. Middleton; Twelfth-Thirteenth ward, Dr. W. R. Tyndall; Eighteenth ward, Dr. W. R. Caldwell; Twentieth ward, Dr. G. F. Harding; Twenty-first ward, Dr. E. S. Wright; Twenty-seventh ward, Dr. H. Allen.

DISEASE FOUND IN SHEEP'S HEAD

Bureau of Animal Industry Receives Report of Government Examination.

Dr. F. E. Murray, inspector in charge of the local office of the bureau of animal industry connected with the department of agriculture, on Saturday received a telegram from Washington announcing that examination had been made by the department of the sheep's head sent to the east ten days before, and the ailment was diagnosed as "lip and leg disease."

The specimen which had been procured by some of the sheep people of the state, was turned over to Dr. Murray last week in September by representatives of the Utah Wool Growers' association, with the request that it be forwarded to Washington, that the local people might be informed whether any case of disease found in Utah was the ailment which has caused so much discussion recently.

The animal which was found to be suffering from the ailment was taken from a lot of sheep at Evanston, Wyo., which had been trailed from that state for shipment from that point, only to be returned back there, when a few were found to have sore mouths.

Dr. Murray received another lamb's head from an inspector at Lund, Utah, last week, this being shown at the meeting held by the sheep men last Monday. This head also was shipped by Dr. Murray to Washington, and an announcement of the result of the investigation in this case is expected in a few days.

Dr. J. W. Treman, city inspector under the new meat ordinance, found three well defined cases of the ailment at a local slaughter house Saturday. Only the mouths of the lambs were affected, and as it has been determined that the ailment is wholly local, and not of the blood, Dr. Treman passed the carcasses for food. He said the animals were good specimens and that there was nothing the matter with the meat. Dr. Treman called on Dr. Murray Saturday to discuss conditions.
